SECTION 5. FIRE FIGHTING MEASURES

EXTINGUISHING MEDIA: Dry chemical, carbon dioxide, foam.
SPECIAL FIRE FIGHTING PRECAUTIONS: Wear self-contained breathing apparatus (SCBA) and personal protective equipment to prevent contact with skin and eyes.
UNUSUAL FIRE OR EXPLOSION HAZARDS: Heat will build pressure and may rupture closed containers. Keep containers cool with water spray. Vapor may travel a considerable distance to source of ignition and flash back.

SECTION 6. ACCIDENTAL RELEASE PROCEDURES

Eliminate all ignition sources.
Small spills may be flushed with large amounts of water. For large spills, wear self-contained breathing apparatus (SCBA), boots, and heavy gloves. Avoid eye or skin contact. Cover with dry absorbent material and collect in closed container for disposal using non-sparking tools. Transport container outside for disposal by approved methods. Rinse with water. All clean-up should be carried out in accordance with federal, state, and local regulations.

SECTION 7. STORAGE AND HANDLING PRECAUTIONS

STORAGE: Store in tightly closed container in a cool environment away from direct sunlight.
HANDLING: Keep away from heat, sparks, and flames.
Avoid breathing vapors.
Use only with adequate ventilation.
Avoid contact with skin, eyes, and clothing.
Wear impervious Butyl gloves.
Wash with soap and water after handling.
Have safety shower and eye wash available.

SECTION 8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

RESPIRATORY PROTECTION: In case of spills, use of self-contained breathing apparatus (SCBA) is recommended as narcosis may occur.
VENTILATION: Local or general mechanical ventilation is required.
SKIN PROTECTION: Impervious Butyl gloves are highly recommended.
EYE PROTECTION: Safety goggles are highly recommended.
