Section 1. Chemical product and company identification

Product name: Hydrogen Bromide
Supplier: AIRGAS INC., on behalf of its subsidiaries
259 North Radnor-Chester Road
Suite 100
Radnor, PA 19087-5283
1-610-687-5253

Product use: Synthetic/Analytical chemistry.
Synonym: Hydrobromic acid; Anhydrous hydrobromic acid; HBr; Hydrogen-bromide-anhydrous-; Acide bromhydrique; Acido bromidrico; Bromowodor; Bromwasserstoff; Broomwaterstof; UN 1048; UN 1788

MSDS #: 001027
Date of Preparation/Revision: 4/26/2010.

In case of emergency: 1-866-734-3438

Section 2. Hazards identification

Physical state: Gas. [COLORLESS GAS WITH A SHARP, IRRITATING ODOR. [NOTE: SHIPPED AS A LIQUEFI ED COMPRESSED GAS. OFTEN USED IN AN AQUEOUS SOLUTION.]]
Emergency overview: DANGER!
MAY BE FATAL IF INHALED.
CAUSES SEVERE RESPIRATORY TRACT, EYE AND SKIN BURNS.
MAY CAUSE TARGET ORGAN DAMAGE, BASED ON ANIMAL DATA.
CONTENTS UNDER PRESSURE.
Do not puncture or incinerate container. Do not breathe gas. Do not get on skin or clothing. May cause target organ damage, based on animal data. Use only with adequate ventilation. Keep container closed. Do not get in eyes, on skin or on clothing. Avoid breathing gas. Wash thoroughly after handling.
Contact with rapidly expanding gases can cause frostbite.

Target organs: May cause damage to the following organs: upper respiratory tract, skin, eyes.

Routes of entry: Inhalation Dermal Eyes

Potential acute health effects

Eyes: Severely corrosive to the eyes. Causes severe burns. Contact with rapidly expanding gas may cause burns or frostbite.
Skin: Severely corrosive to the skin. Causes severe burns. Contact with rapidly expanding gas may cause burns or frostbite.
Inhalation: Very toxic by inhalation. Severely corrosive to the respiratory system.
Ingestion: Ingestion is not a normal route of exposure for gases

Potential chronic health effects:
CARCINOGENIC EFFECTS: Not available.
MUTAGENIC EFFECTS: Not available.
TERATOGENIC EFFECTS: Not available.

Medical conditions aggravated by over-exposure: Pre-existing disorders involving any target organs mentioned in this MSDS as being at risk may be aggravated by over-exposure to this product.

See toxicological information (section 11)

As this product is a gas, refer to the inhalation section.

### Section 4. First aid measures

No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

**Eye contact**: Check for and remove any contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.

**Skin contact**: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Clean shoes thoroughly before reuse. Get medical attention immediately.

**Frostbite**: Try to warm up the frozen tissues and seek medical attention.

**Inhalation**: Call medical doctor or poison control center immediately. Move exposed person to fresh air. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention immediately.

**Ingestion**: As this product is a gas, refer to the inhalation section.

### Section 5. Fire-fighting measures

**Flammability of the product**: Non-flammable.

**Products of combustion**: Decomposition products may include the following materials: halogenated compounds.

**Fire-fighting media and instructions**: Use an extinguishing agent suitable for the surrounding fire.

Apply water from a safe distance to cool container and protect surrounding area. If involved in fire, shut off flow immediately if it can be done without risk. Contains gas under pressure. In a fire or if heated, a pressure increase will occur and the container may burst or explode.

**Special protective equipment for fire-fighters**: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### Section 6. Accidental release measures

**Personal precautions**: Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment (section 8). Shut off gas supply if this can be done safely. Isolate area until gas has dispersed.

**Environmental precautions**: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

**Methods for cleaning up**: Immediately contact emergency personnel. Stop leak if without risk. Note: see section 1 for emergency contact information and section 13 for waste disposal.
Hydrogen Bromide

Section 7. Handling and storage

Handling: Use only with adequate ventilation. Wash thoroughly after handling. High pressure gas. Do not puncture or incinerate container. Use equipment rated for cylinder pressure. Close valve after each use and when empty. Do not get in eyes, on skin or on clothing. Keep container closed. Do not get on skin or clothing. Protect cylinders from physical damage; do not drag, roll, slide, or drop. Use a suitable hand truck for cylinder movement.

Storage: Cylinders should be stored upright, with valve protection cap in place, and firmly secured to prevent falling or being knocked over. Cylinder temperatures should not exceed 52 °C (125 °F).

Section 8. Exposure controls/personal protection

Engineering controls: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Personal protection

Eyes: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts.

Skin: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Hands: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Personal protection in case of a large spill: Self-contained breathing apparatus (SCBA) should be used to avoid inhalation of the product. Full chemical-resistant suit and self-contained breathing apparatus should be worn only by trained and authorized persons.

Consult local authorities for acceptable exposure limits.

Section 9. Physical and chemical properties

Molecular weight: 80.92 g/mole
Molecular formula: Br-H
Boiling/condensation point: -66.7°C (-88.1°F)
Melting/freezing point: -86.7°C (-124.1°F)
Critical temperature: Not available.
Vapor pressure: 320 (psig)
Vapor density: 2.81 (Air = 1)
Specific Volume (ft³/lb): 4.8008
**Hydrogen Bromide**

Gas Density (lb/ft\(^3\)) : 0.2083

**Section 10. Stability and reactivity**

Stability and reactivity : The product is stable.
Hazardous decomposition products : Under normal conditions of storage and use, hazardous decomposition products should not be produced.
Hazardous polymerization : Under normal conditions of storage and use, hazardous polymerization will not occur.

IDLH : 30 ppm

**Chronic effects on humans** : May cause damage to the following organs: upper respiratory tract, skin, eyes.

**Other toxic effects on humans** : Extremely hazardous by the following route of exposure: of skin contact (corrosive), of eye contact (corrosive), of inhalation (lung corrosive). Hazardous by the following route of exposure: of inhalation (lung irritant).

**Specific effects**

- **Carcinogenic effects** : No known significant effects or critical hazards.
- **Mutagenic effects** : No known significant effects or critical hazards.
- **Reproduction toxicity** : No known significant effects or critical hazards.

**Section 12. Ecological information**

**Aquatic ecotoxicity**

Not available.

**Environmental fate** : Not available.

**Environmental hazards** : No known significant effects or critical hazards.

**Toxicity to the environment** : Not available.

**Section 13. Disposal considerations**

Product removed from the cylinder must be disposed of in accordance with appropriate Federal, State, local regulation. Return cylinders with residual product to Airgas, Inc. Do not dispose of locally.

**Section 15. Regulatory information**

**United States**

**U.S. Federal regulations**:
- **United States inventory (TSCA 8b)**: This material is listed or exempted.
- **SARA 302/304/311/312 extremely hazardous substances**: No products were found.
- **SARA 302/304 emergency planning and notification**: No products were found.
- **SARA 302/304/311/312 hazardous chemicals**: Hydrobromic acid
- **SARA 311/312 MSDS distribution - chemical inventory - hazard identification**: Hydrobromic acid: Sudden release of pressure, Immediate (acute) health hazard
- **Clean Water Act (CWA) 307**: No products were found.
- **Clean Water Act (CWA) 311**: No products were found.
- **Clean Air Act (CAA) 112 accidental release prevention**: No products were found.
- **Clean Air Act (CAA) 112 regulated flammable substances**: No products were found.
- **Clean Air Act (CAA) 112 regulated toxic substances**: No products were found.
